

Listing of Claims:

1-21 (Cancelled)

22. (Previously presented) A method for cooking a pizza comprising the steps of:
placing a pizza on a generally circular, rotatable food support member having a central axis of rotation wherein the food support member is adapted to be disposed in a substantially horizontal orientation and the pizza is positioned over the axis of rotation of the food support member; and

rotating the pizza contained on the food support member multiple times through a heating chamber defined by upper and lower housings, the upper and lower housings extending over and under respectively only a portion of the food support member such that heating members in the housings apply heat to only a portion of the pizza as the portion of the pizza rotates through the heating chamber to cook the pizza.

23. (Currently amended) The method of claim 22 further comprising the step of removing the pizza food support member from the heating chamber after the pizza is cooked.
